The Floyd County Animal Rescue League will hold their next Feline Fix event on Wednesday, February 3. At this event, your cat can receive spaying/neutering, rabies and 1st infectious disease shots for the low cost of \$40. If you would like to register your cat for the Feline Fix, or to find out more information, please contact the Rescue League office at 812-949-9099, or by email at nafcarl@covad.net.

Kittens can and do get pregnant at 4 months old! In 7 years, one female cat and its young can produce 420,000 kittens. Almost 8,000,000 dogs and cats are euthanized each year because there are no homes for them. Please help reduce the number of unwanted animals in Southern Indiana by having your pet spayed or neutered.
