

The blast of cannons and the piercing ring of reveille will punctuate the southern Indiana countryside this July, as dozens of soldiers reenact the famous Civil War Battle of Corydon, which originally took place July 9, 1863. The dramatic reenactment will take place July 7-8, 2012. Events, such as reveille, encampment, demonstrations and military ball are held at Hayswood Nature Reserve, just a short distance from the historic battlefield. A special reenactment of Morgan's Raid will gallop into downtown Corydon at high noon, just as they did in 1863 with Confederate soldiers pillaging local shops, homes and buildings. Following the downtown raid reenactment, visit Governor Hendricks' House, which was home to soldier William Porter during the 1863 Battle of Corydon. While there try authentic Civil War recipes such as, spoon bread and pickled water.

The original Battle of Corydon was sparked when 450 members of the Harrison County Home Guard tried to stop the famed raid by Confederate General John Hunt Morgan as he marched 2,400 troops through southern Indiana and Ohio.
