

There is something about a good treasure hunt that people like. That's why shows like Storage Hunters, Pawn Stars and especially American Pickers have grown in popularity over the past several years. Frank and Mike, of American Picker fame, plan to make their way to Indiana in mid-July to look for more hidden treasures. Producers for the show are looking in advance for places in the Hoosier State to pick.

If you have seen the show, you know the kind of places the duo likes to look.

"They always want to stay true to the show and they really like to dig an hunt for the treasures they find," said one of the shows producers.

If you have a place that you think Frank and Mike would like to pick, you are encouraged to e-mail to AmericanPickers@Cineflix.com.

The high profile show follows two of the most skilled pickers in the business 'Mike Wolfe' and 'Frank Fritz' as they embark on an epic road trip across the US. The show offers a fascinating insight into what it's like to be the men on the ground who are on the frontlines of the antique industry.

The show follows the pickers in their truck as they go on a mission in search of America's most fascinating and valuable antiques – treasures that have been long forgotten in junkyards and barns across the country.

The team tracks down unique and interesting items from motorcycles, classic cars and bicycles to one-of-a-kind vintage memorabilia.

The series follows the highs and lows of the trade as our team gets their hands dirty in the search of weird and wonderful hidden treasures. The show examines how determination and amazing instincts drive the pickers to salvage the good junk from the bad junk. On the adventure our team meets fascinating characters along the way each with a story to tell about the history of their collection and their own lives. Mike and Frank bring the past to life and recycle America as they go. On the way, we explore how our pickers strike the ultimate deal and discover just what it takes to renovate and re-sell a newly found antique in a competitive market.

The following is a list of things to remember.

Frank and Mike aren't looking for flea markets or antique stores. They truly want to pick.

The messier, the more cluttered, the better they like it.

They are steering clear of Ag items at this time.
