? Thanks to Charlestown High School Custodian Linda Duncan who has been documenting and continues to document the changes involving the construction of the new Charlestown High School, a photo gallery has been set up at www.CharlestownPiratePride.com/ProjectCHS.htm for everyone to view the progress of the project as well as preserve images of the facilities' history and transformation.

The Photo Gallery will be updated with additional photos each week until the project is concluded, which provokes a reminder for those interested in dedicating a brick or stone bench along the new Pirate Pride Way, do not forget to log on to www.CharlestownPiratePride.com/PiratePrideWay.htm and add your mark to the new facility.
