

Lanesville's Christmas season started up with their Light Up Lanesville celebration on Saturday December 2.

Santa Claus rode into town from the West on an early 1900 bob sled, owned by Scott and Jane Berkley, that was Amish restored to greet the town's people to start their Christmas celebration.

With NO SNOW cover the street into town, "Spunky" and "Jane", the team of mules pulled the bob sled with rubber tires attached to the runners for pulling on the street. Santa Claus and Mrs. Claus greeted the youngsters with a sit on Santa's lap to hear the children's wishes for Christmas.

As many as 55 star shaped lights brightened Main Street of Lanesville.

Check next week's issue of The Banner Gazette for more photos from Light-up Lanesville.
